## Reusable, Dry Erase Easel Pads

DRYMark EVERGreen Reusable, Dry Erase Easel Pads are an Eco Friendly, inexpensive replacement for regular disposable paper easel pads.

These high quality, environmentally friendly Dry Erase Pads are designed for repeated use, eliminating the high cost of replacement, delivery, inventory, disposal, recycling and de-inking of regular paper pads.

- Patented "REUSABLE" clip design enables one sheet removal and repeated use, delivering an "Unlimited Product Life Cycle".
- Saves more than 80% over the cost of traditional disposable easel pads.
- Reduces the "environmental impact" and related cost of Repurchasing, Recycling and Disposal of regular pads over and over again.
- Available in **PAPER**, **FILM** and **SELF-STICK** versions, they can be used with any type of dry erase and/or permanent marker or cleaner.
- Available in both paper and super durable DuraWhite™ film. Both can be custom printed for promoting a company or organization's eco friendly message, statement, or support.

DRYMark EVERGreen pads have a patented Reusable Clip Design that allows a single sheet to be removed. Sheets can then be placed back on the pad and reused again.

DRYMark EVERGreen dry erase paper pads (Item 101) come with a self-stick, peel-off mounting strip that enable paper sheets to be mounted on most smooth, clean, dry surfaces and then used again.

Item	Description	Pkg. Qty.
