

Our Customers:

We are a customer-focused organization that strives to provide our clients with the latest and most effective solutions for your cleaning needs.

As a client, you will receive a detailed analysis of your facilities and we will create a plan to serve your needs in the most cost-effective manner possible. We will train your employees and offer seminars to teach them the latest in cleaning techniques and demonstrate products available. We can accommodate your delivery scheduling if you have special requirements.

Our Affiliations:

OLMSTED-KIRK
Equipment & Supply Co.

Your service-driven provider of cleaning chemicals, floor supplies and equipment, business paper products, industrial packaging supplies & equipment, business papers and environmental service equipment. Our goal is always to provide exceptional service to our customers.

We specialize in assisting and supplying the following industries:

- * Manufacturing
- * Health Care Facilities
- * Schools
- * Contract Cleaners
- * Heavy Industries
- * Municipalities
- * Hospitals
- * Automotive
- * Hotels

Our Company and People:

Olmsted-Kirk Equipment & Supply is a division of Olmsted-Kirk Paper Co, which has been in business since 1905. We celebrated our 100-year anniversary on July 12, 2005. Our sales representatives have an average of 15 years of experience in the industry, with some surpassing 30 years, giving them the expertise meet any customer's needs.

We host our annual Olmsted-Kirk Equipment & Supply Chili Fest & Open House on the second Friday every November. We host over 2,000 customers and serve over 1,000 pounds of chili. This event is not sales-driven, rather it is simply another way we show our customers that we appreciate their business.

Training:

We aim to help you solve any problems that may arise in your facility. Often, solving these problems involves the training and education of your staff. We can come to your facility and demonstrate to your employees new processes and techniques that can help them become more efficient, resulting in a cleaner, more aesthetically appealing facility.

We also offer intensive training on specific subjects through Olmsted-Kirk University of Cleaning Technology (OKU). Through use of our own experts, and industry leaders outside our company, we train our customers in many areas to maintain the quality of your environment. Participants receive a certificate, which is valuable in our industry. Past topics include: Green Cleaning, Hard Floor Care, Equipment, and Restroom Care.

Service Department:

Olmsted-Kirk Equipment & Supply offers the most advanced and reliable equipment on the market. If routine maintenance is needed on equipment, or in the event it needs repairing, we have two technicians in Dallas to work on the machines, and we also provide our customers with the option to have one of our trucks pick up equipment. In addition to servicing our own line of equipment, we can repair most other brands.

Technology:

In addition to providing the latest products and equipment, we are constantly using technology to provide better service to our clients, especially in managing our warehouses and inventory. In most cases, we can provide next-day or second-day delivery. We also have an online catalog and ordering system where customers can not only place their orders online, but will also have access to account information, inventory levels, Material Safety Data Sheets, and so much more!
