

NOW THERE'S A
STRONGER WAY TO GO GREEN

EarthWise™ Degradable

Introducing Olmsted-Kirk's EarthWise™ degradable trash can liners — versatile, cost-effective performers that are better for you, better for the environment. Available in both linear low density and high density resins, these liners deliver the tough performance, plus important “green” advantages that make them a smart choice for environmental sustainability.

EarthWise™ – Degradable High Density (HDPE) Liners

ITEM #	GALLONS	COLOR	PACK ROLL/BAGS	CASE COUNT	NETPOLY WT./ LBS.
 OKEW-HD2433-08G	10	Green	10/100	1000	14.6
 OKEW-HD3037-10G	20-30	Green	10/50	500	13.0
 OKEW-HD4048-16G	40-45	Green	10/25	250	18.0
 OKEW-HD3860-17G	60	Green	10/20	200	16.9

OLMSTED-KIRK
Equipment & Supply Co.

High Density (HDPE)

Olmsted-Kirk's EarthWise HDPE liners contain a special oxo-biodegradable additive that stimulates photodegradation (UV) and oxidation to reduce the molecular weight of the plastic film. When exposed to UV light, heat and oxygen, this two-step process breaks down the plastic into small fragments, which are then able to degrade.

With Olmsted-Kirk's EarthWise liners there's no need to choose between your performance and environmental goals.

- Easily handles non-sharp heavy, wet waste.
- Superior strength and load capacity.
- Excellent chemical resistance, temperature resistance and odor containment.
- Seamless tubular construction maximizes overall integrity.
- Star-seal bottom eliminates seam failure and prevents leaks.
- Coreless rolls for ease of use and storage.
